	CD Replication

Avishkaar

Human Resource Outsourcing:

We undertake permanent staffing & temporary/contract staffing to software companies. We are completely process driven and we offer our clients the best candidates at fast turnover time and at best conversion rate.

We have catered to our clients in the field of software development on Microsoft technologies and web designing platforms.

Our Employee Leasing Service works by the simple device of transferring employees from a company on to the payroll of Avishkaar's Employee Leasing services and then leasing them back to the company on a temporary basis, as necessary. Avishkaar Techno Solutions then becomes the legal employer, taking over all the HR management tasks.

Outsourcing your HR administration to Avishkaar Techno solutions will certainly give you more time to concentrate on your core business and, at the same time, save you time, money and resources.

Key Clientele:

I heartily recommend this company to those who may have need of their services. They are pleasant, confident, and professional in all ways. I recommend them without reservation. **BOSCH**

As you are the back bone of our Inventory Management I will keep your card and use your services as well as recommend you and your company to others **ARVIND**

For all our IT & ITES needs you are the only solution **CITYMAX**

Thanks for you assistance in maintaining our IT Infra. I appreciated your five star service and professionalism. **GENSER**

Avishkaar

Case Studies

BOSCH POWER TOOLS

Bosch power tools division had a DOS based ERP system to maintain their sales and Inventory. In the year 2005 they migrated to SAP to have an advanced and robust system in place. After successful implementation of SAP and streamlining of all the processes, they were able to capture all the information in a systematic manner. Once they had all the relevant data, the challenge was to analyze the data present in a neat format to the department heads and range heads. Even though they had SAP BW server, they didn't had the expertise to extract data in the required formats. Hence the need rose for a system which can extract the raw data from SAP and provide reports in the required formats.

Arvind Lifestyle Brands Ltd

Styles may be short lived, but for well over seven decades Arvind has been defining and shaping many a collection and trendsetting styles across the ramps and retail outlets of the fashion capitals of the world. Arvind is today synonymous with a vast range of lifestyles products - be it fabrics or brands. Time and again we have been called to produce some of the finest fabrics and exacting dresses for some of the world's most quality conscious brands - while evolving our own extensive brand portfolio.

ALBL has different systems in place like SAP for ERP, Voyager for POS and Tally shoppers, Loyalty program by UCP. ALBL has no tool to integrate reports consolidating ERP, POS, and Loyalty Program data. The need was also to make reports accessible for all vendors (access based) and the management for business analysis.
